Address: Karachi, Pakistan

PROFILE SUMMARY

I Dedicated and growth-driven Full-Stack Mobile App Developer specializing in Flutter-based cross-platform applications with strong backend integration using Firebase and Supabase. Experienced in building scalable, responsive mobile apps with clean UI, secure authentication, and real-time data handling. Passionate about writing maintainable code, solving real-world problems, and collaborating in professional development environments.

EDUCATION

Degree College for Women, Karachi | 2023-2025

HSC (Computer Science)

Karachi High School | 2021-2023

SSC (Computer Science)

EXPERIENCE

Flutter Front-End Developer (Intern)

Innovatechstar (Remote)

September 1, 2025 – December 1, 2025

- Gained hands-on experience in mobile app development
- Developed user-friendly app interfaces using Flutter
- Implemented Firebase for authentication and real-time data
- Integrated REST APIs to enhance app functionalities
- Collaborated with remote team members to meet project goals

---

TECHNICAL SKILLS

Mobile App Development

- Flutter Framework
- Dart Programming Language
- Responsive UI & Custom Widgets
- Cross-Platform App Architecture

State Management

- Bloc
- Provider
- GetX

Backend & Cloud Technologies

- Firebase (Authentication, Firestore, Realtime Database, Cloud Storage)
- Supabase (Auth, Database, Backend APIs)
- REST API Integration
- Real-Time Data Handling

Development Practices

- Clean Architecture & Scalable Code
- UI Optimization & Performance Tuning
- Debugging & Testing
- Git & Version Control (Basic)

PROJECTS & HIGHLIGHTS

- Designed and developed multiple Flutter-based mobile applications
- Implemented full authentication flows using Firebase & Supabase
- Built real-time features such as live data updates and user dashboards
- Followed clean architecture principles for scalability and maintainability
- Focused on smooth user experience, responsive layouts, and performance

---

CAREER OBJECTIVE

To grow as a Full-Stack Mobile App Developer, contributing to impactful mobile solutions while continuously improving my skills in Flutter and backend technologies. Seeking opportunities that offer real-world challenges, mentorship, and professional collaboration.
